

FAASTeam presents:

# **IMC Club Meeting: Mastering the Art of Instrument Navigation**

Many resources are available to the instrument pilot. Balancing the amount of information you can access during the flight, while remaining in control is a critical skill you must develop. We will use a video presentation of a scenario to spark a conversation on in-flight decision making. IMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building instrument flying knowledge and skills. The organization network promotes a safety culture through continued education and believes that safety and proficiency are developed through education and experience. Monthly Meetings offer an opportunity to share in-flight experiences and valuable safety tips. Through the FAA Safety Program, aviation professionals offer informative WINGS presentations. You do not have to be a rated instrument pilot to attend. Membership in the international IMC Club is encouraged but not required. For more information and to attend this event, click the link below and register TODAY.

**Directions:** The seminar will be held in the conference room below the restaurant.

**A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

## Event Details

**Wed, Dec 16, 2015 - 19:00 EST**

**Terminal Building**

473 Airport Road  
Conference Room  
Butler, PA 16002
